

This document contains:

- The Event Covid-19 risk assessment and risk mitigation plan in accordance with the [FEI Policy for Enhanced Competition Safety during the Covid-19 Pandemic](#)
- The Event Approved Schedule

Given the current covid-19 situation, please note that the FEI's approval of a Schedule should not be taken as an absolute guarantee that the Event will definitely go ahead. The decision whether the Event can take place must be made by the OC and NF in close consultation with the applicable domestic government and public health authorities. It is the responsibility of each Participant to check the status of the Event prior to planning his/her travel to the Event.

Risk assessment for COVID-19

The questions below will enable OCs to review the additional considerations specific to sports, and thus inform their risk assessment of COVID-19 associated with their Event. This will help OCs understand and manage any additional risk from COVID-19.

The risk assessment should be reviewed and reassessed regularly during the planning phase and updated immediately prior to the transition to the operational phase, especially in light of the rapidly evolving nature of the outbreak. Reference should be made to the latest technical guidance and situation reports on the WHO website.

The risk assessment for COVID-19 associated with the Event must be coordinated and integrated with the host country's national risk assessment for COVID-19. The person completing the questionnaire should include input from the local public health authorities, consult WHO's latest technical guidance and ensure that there is an up-to-date evaluation of the epidemiological situation.

Please answer Yes (1) or No (0) to the following questions to determine a risk assessment score that incorporates factors specific to sporting events

Additional risk of COVID-19 to the sporting event	Yes (1)/No (0)	Score
Will the event be held in a country that has documented active local transmission of COVID-19 (community spread)?	1	1
Will the event be held in a single venue or multiple venues/cities/countries? (single venue = 0; multiple venues = 1)	0	0
Will the event include international participants (athletes and spectators) from countries that have documented active local transmission of COVID-19 (community spread)? (NB: if the Events does not involve spectators, please clarify this in the comments to the questions in relation to spectators in the "Mitigation Checklist" sheet)	1	1
Will the event include a significant number of participants (athletes or spectators) at higher risk of severe COVID-19 disease (e.g., people over 65 years of age or people with underlying health conditions)?	0	0
Will the event include sports that are considered at higher risk of spread for COVID-19 (eg, contact sports)?	0	0
Will the event be held indoors? (Yes = 1; No = 0)	0	0
Total COVID-19 risk score		2

Mitigation checklist for COVID-19

Mitigation measures assess the current effort and planning to reduce the risk of spread of COVID-19 disease for the event. As mitigation measures can reduce the overall risk of the sporting event contributing to the spread of COVID-19, they should be taken into account after the risk assessment has occurred to gain a clearer understanding of the overall risk of transmission and further spread of COVID-19, should the event be held. Together with the risk assessment score, the mitigation measure will contribute to the decision matrix and influence the assessment of the overall risk of transmission and further spread of COVID-19 in relation to the event.

III. THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and Athletes must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.

The Long version of this Code can be obtained from the Fédération Equestre Internationale, HM King Hussein I Building, Chemin de la Joliette 8, 1006 Lausanne, Switzerland. Telephone: +41 21 310 47 47. The Code is available in English. The Code is also available on the FEI's website: <https://inside.fei.org/fei/regulations/general-rules>.

3. INSURANCES AND NATIONAL REQUIREMENTS

Equestrian sports involve inherent dangerous risks. To the greatest extent permitted by law, the FEI and the FEI Event Organiser shall NOT be liable for any damages relating to loss of property or injury of any kind to Athletes, Owners, Support Personnel or Horses at or in connection with an FEI Event and the FEI expressly excludes all such liability.

3.1 ATHLETES, OWNERS AND SUPPORT PERSONNEL

3.1.1 Personal accident and health insurance

It is your responsibility as an Athlete/Owner/ Support Personnel to ensure that you have adequate personal accident insurance in place to cover your participation at FEI Events and in particular to insure against any personal injury or medical expenses arising from an accident, injury or illness which may occur at a FEI Event.

You should check with your National Federation to confirm if your National Federation's insurance policy (if any) covers personal accidents and/or illnesses, which may occur when you are attending at/participating in FEI Events.

If your National Federation does not have a personal accident/health insurance policy or if the National Federation's insurance policy does not cover personal accident or health claims, then you should obtain your own personal accident and health insurance policy to cover your attendance/participation at FEI Events.

3.1.2 Press equipment

Press equipment and other items left in the Press workroom, Press lockers, the Press Tribune or anywhere on the showgrounds are left entirely at the owner's risk. The Organising Committee does not accept any responsibility for any loss or damage to such equipment or items. Members of the Press are advised not to leave any equipment or personal items unattended.

3.1.3 Personal property insurance

You should also ensure that you are insured against property loss, theft or damage, which may occur at an FEI Event.

Again, the advice is to check with your National Federation to confirm if they have an insurance policy in place, which would cover you in case of such property loss, theft or damage. If not, then you should obtain your own personal property insurance to cover such situations.

3.2 ATHLETES AND OWNERS

3.2.1 Third party liability insurance

As an Athlete/Owner you are personally responsible for damages to third parties caused by you, your employees, Support Personnel, your agents or your Horses. You are, therefore, strongly advised to take out third-party liability insurance providing full coverage in relation to FEI Events at home and abroad, and to keep the policy up to date.

The FEI and the Organiser will NOT be responsible for any damage caused to third parties by you, your employees, Support Personnel, your agents or your Horses.

XV. ANNEXES

1. STEWARDING

If an athlete is uncertain as to whether the boots he/she intends to use during an event are allowed, he/she or his/her representative should show the boots to the Chief Steward for his/her opinion before the boots are used in training or in competition.

In addition, athletes are to be made aware that hind boots must be removed and placed again on the horse's legs in the presence of a Steward while in the warm-up arena prior to entering the competition arena for certain competitions. (If bandages are used in place of boots, athletes are not required to remove the bandages in the warm-up arena.) This procedure is compulsory for competitions for which boot and bandage control is mandatory, that is the Nations Cup, Championships, and the competition with the highest prize money, and is at the discretion of the Chief Steward for other competitions.

As an alternative to carrying out this procedure at the time designated by the Steward an athlete may ask his/her groom to take the boots to the in-gate and place them on the horse's legs in front of the Steward prior to the combination entering the arena.

The Steward has the authority to intervene if a boot is deemed excessively tight by instructing that the boot be removed and put on again correctly. [Stewards are to note that it is normal for a horse's gait to be somewhat affected immediately after boots have been removed and re-placed.] If an athlete or his/her groom refuses to remove and re-place the boot(s) when instructed to do so by the Steward, a Yellow Warning Card will be issued to the athlete in question.

If it is deemed impossible or unsafe to remove the hind boots in the warm-up arena prior to the combination entering the competition arena, due to an extremely excited or nervous horse, the boots of the horse in question are to be removed by the athlete/groom following the athlete's round upon leaving the arena and inspected by the Steward. This inspection may be carried out during the boot and bandage control if the boot and bandage control is carried out for the competition in question.

This procedure does not replace boot and bandage control after completion of an athlete's round for competitions for which boot and bandage control is mandatory (refer to JRs Art. 244.1)
